| Entry Point | Observation | Potential Risk Hypothesis |
|---|---|---|
| **Login Page** | Email and password fields are visible | Authentication-related weaknesses may exist |
| **Search Bar** | User can enter search queries | Input validation weaknesses may exist |
| **Registration Page** | User data input fields are visible | Improper input validation may exist |
| **Product Page** | Product information is displayed | Information exposure may be possible |
| **Basket Page** | Product selection functionality is visible | Access control weaknesses may exist |

**Note:** These are preliminary risk hypotheses based on visible observations only. No vulnerabilities have been confirmed through testing.
